Installation Instructions

Dimensions

Instructions

Please ensure the power supply is fully switched off before carrying out any installation work.

Step 1 – Fix the Main Housing

Position and secure the housing using the provided screws. Ensure it is level and firmly fixed.

Step 2 – Connect the Wiring

Open the housing and connect the power cables to the terminal block, matching live, neutral and earth where required. Secure all connections.

Step 3 – Install Internal Components

Place the internal tray into the housing, ensuring it is properly aligned and seated.

Step 4 – Fit the Diffuser Cover

Align and clip or slide the diffuser into place along the full length until it is securely fixed.

Step 5 – Orientation Check

Ensure the longer section of the gear tray is at the top. The curved part of the diffuser should be at the bottom, forming the underside of the fitting.

Top section of the gear tray is longer compared to the bottom

Curved part of the diffuser at the bottom links to the shorter section of the gear tray.

Shorter section of the gear tray.

Curved part of the diffuser at the underside bottom of the light fitting

Instructions

Step 6 – Final Check

Restore power and test the fitting to ensure correct operation.

Disclaimer

This product must be installed by a skilled or instructed person in accordance with the current edition of the IET Wiring Regulations BS 7671 "Requirements for Electrical Installations" and the Buildings Regulations, as may be applicable subject to the location and country of the installation.

Should this product be modified, misused or not installed as per the instructions given, the product warranty shall be rendered void.

All information contained within these installation instructions manual is provided in good faith. Orlight shall not be held responsible for any losses incurred as a result of the Customer's failure to follow the instructions manual thoroughly and in its entirety or failing to inspect the product for missing parts and/or any defects prior to installation.

For full Terms and Conditions, please visit our website at: <https://www.orlight.com/en/terms-and-conditions.html>

Wiring:

Disconnect the mains supply before installation. Ensure that the unit is installed and maintained by a certified professional and that installation conforms to any local building control standard applicable.

Accessories:

Please ensure that any accessory used in conjunction with these products is approved by Orlight. Failure to do so will void any product guarantee. Orlight will not be held responsible for any loss incurred be it direct or consequential.

NOTE – Light fittings in general can become hot whilst in operation. It is advisable that they do not come into contact with any flammable materials such as fabrics, furniture, soft furnishings or touched during/after operation.
