

Instructions

Installation Type 1:

Standard installation. Adhesive strip supplied pre-assembled. Simply remove non-adhesive backing and apply to surface. Ensure the surface is clean - dust, debris, and grease free - and of a nonflammable material.

Installation Type 2:

- 1) Screw clip onto surface.
- 2) Slide Refract 2 into position.
- 3) Alternatively, if application space is an issue, push Refract 2 onto secured clips from above.

Installation Type 3:

Create cutout for Refract 2 to sit flush within the surface. Either Installation Type 1 or Type 2 are viable installation options within cutout.

Disclaimer

We recommend that this product is installed by a competent person in accordance with the latest edition of the IET Wiring Regulations BS 7671 "Requirements for Electrical Installations" and the Buildings Regulations, as may be applicable subject to the location and country of the job or installation.
