Installation Instructions

Dimensions

Instructions

Please consult qualified electrician prior to any electrical installation.

Step 1: Secure the mounting plate to the wall using the appropriate fixings, ensuring the supply cables are fed through the central opening.

Step 2: Connect the incoming mains supply to the terminal block:
L – Live, N – Neutral, $\perp$ – Earth.
Ensure all connections are tight and comply with wiring regulations.

Step 3: Position the main body of the fixture over the mounting plate and fasten it securely using the fixing screws provided.

Step 4: Attach the inner cover by aligning it with the fixture body and twisting it into the locked position.

Step 5: Fit the outer shade by raising it into place and rotating it gently until it locks securely onto the fixture.

Disclaimer

This product must be installed by a skilled or instructed person in accordance with the current edition of the IET Wiring Regulations BS 7671 "Requirements for Electrical Installations" and the Buildings Regulations, as may be applicable subject to the location and country of the installation.

Should this product be modified, misused or not installed as per the instructions given, the product warranty shall be rendered void.

All information contained within these installation instructions manual is provided in good faith. Orlight shall not be held responsible for any losses incurred as a result of the Customer's failure to follow the instructions manual thoroughly and in its entirety or failing to inspect the product for missing parts and/or any defects prior to installation.

For full Terms and Conditions, please visit our website at: <https://www.orlight.com/en/terms-and-conditions.html>

Note: Replace lens if it is cracked. This product must be earthed.

Wiring:

Disconnect the mains supply before installation. Ensure that the unit is installed and maintained by a certified professional and that installation conforms to any local building control standard applicable.

Mains installation:

Connect the mains to the terminal block provided. Insert the lamp within the fitting and connect to lamp holder.

Lamp replacement:

Please ensure to disconnect the mains supply prior to re-lamping.

Note: Light fittings in general can become hot whilst in operation. It is advisable that they do not come into contact with any flammable materials such as fabrics, furniture, soft furnishings or touched during/after operation.
