

SIREN

Installation Instructions

Dimensions

Instructions

Step 1: Always isolate the electrical circuit before beginning. Mark the fixing points on the ceiling, cut the appropriate openings, then pull the wiring through the ceiling plate and make the required connections to the SIREN.

Step 2: Fix the ceiling plate into position using the screws provided. Throughout this stage, ensure the separate components are supported to prevent any unnecessary strain on the wiring.

Step 3: Once the ceiling plate is securely mounted, align the SIREN with the threaded elements and rotate it into place until fully secured.

Disclaimer

This product must be installed by a skilled or instructed person in accordance with the current edition of the IET Wiring Regulations BS 7671 "Requirements for Electrical Installations" and the Buildings Regulations, as may be applicable subject to the location and country of the installation.

For more information and installation guide lines please refer to "Guide on Lighting Risks and Regulations" which can be downloaded from the website: https://www.orlight.com/content/files/orlight/resources/Guide_on_Lighting_Risks_and_Regulations_2020.pdf

Should this product be modified, misused or not installed as per the instructions given, the product warranty shall be rendered void.

All information contained within these installation instructions manual is provided in good faith. Orlight shall not be held responsible for any losses incurred as a result of the Customer's failure to follow the instructions manual thoroughly and in its entirety or failing to inspect the product for missing parts and/or any defects prior to installation.
